Messrs. A G. Bragg & Co.—I had a valuable horse that about bree weeks since was wounded severely in his thigh, with a sharp heok, opening a gash three inches in length and an inch or more deep. I tried various articles to heal it, but inflamation getting into it caused large quantities of matter to collect, and the limb was quite stiff. A friend of mineasked me if I and tried the Mustang Liniment to which I replied in the negative, but thinking it might do some good, was induced to try it. I had only used one half bottle when the inflamation began to be removed and the wound to heal. Now it is entirely healed and the hair is growing over the wound, making it look as well as ever—

A Legislative Picture. Indiana Assembly:

Of the sixty or seventy present, six or eight looked well educated, intelligent men; about twenty appeared like honest-hearted farmers, while the rest, it seemed to me, were designed by nature for anything but legislators. One rural looking young gent was strutting around with his coat out at both elbows; another showed a wide streak of white around his body, where his vest failed to connect with his pants; s verel wore hats that somehow strangely reminded you of bricks, and a major ty of them, I am sure, will find their wash bills a small part of their expenses. They all smoke perseveringly; so I rather think it is a rule of the house. When not smoking, their mouths were immediately filled with tobacco, so that no time was lost.
